

Principal's Welcome

Principal's Message

Greetings to the Bayonne High School Community. Our staff is working diligently to provide each and every student with a positive learning environment and the best education possible.

Teachers meet regularly in their Professional Learning Communities to reflect on student learning and to adjust their teaching strategies for each child. Teachers collect information from classroom observations, discussions with students and data we receive from student assessments.

We believe that communication is an absolute must to create a successful learner. The Bayonne School District offers "Parent Portal" so parents can monitor their child's grades, attendance, disciplinary actions, etc. I encourage you to communicate with our professional staff which includes our Guidance Department, Medical Department, as well as our Vice Principals and Curriculum Directors. Their contact information is provided on the Bayonne High School website and they can be easily reached by telephone or email.

Bayonne High School can boast one of the finest campuses in the state. More importantly, we offer one of the finest and most diversified curriculum offerings available to any high school student in the nation.

Bayonne High School is an institution steeped in tradition. Our mission today is the same as it was over a century ago – to provide all students an education which will allow them to reach their fullest potential. We believe in one's dignity, the need for personal fulfillment, and the acceptance of one's responsibility as a member of a democratic society. Striving for excellence has been and will continue to be our goal. The tradition over a century ago continues to grow today.
