

Rotary International Water Project

Water is essential to human life, yet many people take the gift of safe water for granted. Lack of safe water and unclean situations are the leading contributor to worldwide poverty and social instability.

The Washington Community School Student Council, along with the entire Bayonne School District and the Local Rotary Club of Bayonne, are looking to raise money to assist in helping these countries in which their water is not safe.

We will hold a dress down day on **Friday, November 17th**. Students that bring in any monetary donation can dress in their own school appropriate clothing. Any donations will be greatly appreciated and can be sent to Room 210.
