Dear Parents/Guardians of students entering Grade 3 in September 2020,

This summer, your child will continue to build a strong foundation in core mathematical skills using IXL. Due to the adjustment in teaching and learning this spring, it is more imperative than ever before that students complete the Summer Bridges Assignment. The assignment has been crafted to preserve age-appropriate basic math skills.

Seven IXL skills in your child’s new grade level have been selected. **For every assigned skill that your child earns a minimum SmartScore of 80 OR has attempted at least 15 problems, your child will earn one point.** An adaptive diagnostic component is also being included this year to help prepare teachers to meet the individual needs of each student due to the interruption of traditional schooling. **Your child can also earn an additional 3 points for completing a minimum of 30 diagnostic questions during the summer.** We encourage your child to complete additional diagnostic problems throughout the summer to help identify learning gaps from COVID-slide.

**In order to receive credit, however, students must show ALL work on scrap paper labeled by skill and turn it into their teacher no later than September 23, 2020.**

In addition to the diagnostic component, the following Grade 3 skills have been assigned:

1. B.4 - Value of a digit
2. C.2 - Addition input/output tables: up to three digits
3. C.3 - Add two numbers up to 3 digits: word problems
4. D.1 - Subtract numbers up to 3 digits
5. D.3 - Subtract numbers up to 3 digits: word problems
6. S.3 - Purchases - do you have enough money - up to $10
7. T.1 - Match clocks and time

You can access these skills at [https://www.ixl.com/math/grade-3](https://www.ixl.com/math/grade-3)

Your child can continue to use their current IXL login credentials. If you are unsure of these credentials, please contact your child’s teacher.

**Please make sure your child is logged in before he or she starts to work. Otherwise, his or her progress will not be saved nor will his or her new teacher be able to view it in September.**

**Dawn Aiello**
Director of Mathematics
