

Happy Spring! It's hard to believe we're already in March! As we move through the year, I want to encourage you to continue reading with your child/children for at least 20 minutes a day. This simple habit is one of the most powerful ways to support their academic growth while also creating a special bonding experience.

When we think back to our most cherished literacy experiences, many of us remember being read to, by a parent, teacher, or sibling. These moments of adventure, comfort, and connection are what make reading aloud so meaningful. Research shows that reading aloud builds vocabulary, strengthens comprehension, fosters a love of books, and encourages lifelong reading habits. As children grow older and become independent readers, shared reading experiences continue to benefit them in countless ways.Let's work together to make reading a daily tradition at home! Thank you for your support in nurturing a love of reading in your child's life.

Happy Reading!
