PROGRAMS FOR PREGNANT STUDENTS

R 2416 PROGRAMS FOR PREGNANT STUDENTS

Principals shall make every effort to adjust the program of a pregnant student when her condition requires it.

The principal may not exclude a pregnant student from school attendance unless such action is recommended by the student's physician as best for her and her child's health.

Principals may readmit a student following termination of her pregnancy upon recommendation of her physician certifying that attendance at school will not be injurious to her health.

Prior to readmission, the student and her husband or one of her parents shall confer with her principal concerning any desirable adjustments in her program which may include, but need not be limited to, such alternatives as: full-time attendance, part-time attendance, or tutoring.

Issued: 28 July 1997
