June 14, 2021

Dear Parents/Guardians of students entering AP Calculus BC,

This summer your child will have the opportunity to reverse summer learning loss and to build a strong foundation in core Pre Calculus skills using Google Classroom. He or she will also have the opportunity to earn up to ten extra credit points on the first mathematics test of the 2021-2022 school year. Students are required to use their BBOED school email to access the BC Calculus Summer Bridges assignment. There are about 154 problems for BC Calculus Summer Bridges. Students are required to use their BBOED school email to access the BC Calculus Summer Bridges assignment.

The Google Classroom page is called *BC Calculus Summer Bridges*

Code: *ubvpmaf*

- Students should start from the bottom of the classwork page.
- The first assignment has to do with Limits.
- Videos are included for reference.
- Students are urged to solve the Khan Academy problems that supplement the videos but those problems are not part of the Summer Bridges.
- Students answer the problems from the screenshots of the textbook pages.

Note: In order to receive credit, students must show ALL work on scrap paper labeled by skill and turn it into their teacher by September 22, 2021.

Also, please do not wait until the end of the summer to begin these skills.
