Dear Parents/Guardians of students entering Grade 5 in September 2021,

This summer, your child will continue to build a strong foundation in core mathematical skills using IXL. Due to the adjustment in teaching and learning this school year, it is more imperative than ever before that students complete the Summer Bridges Assignment. The assignment has been crafted to preserve age-appropriate basic math skills and to reverse summer learning loss.

Five IXL skills in your child's new grade level have been selected. **For every assigned skill that your child earns a minimum SmartScore of 80 OR has attempted at least 25 problems, your child will earn one point.** An adaptive diagnostic component is also being included this year to help prepare teachers to meet the individual needs of each student due to the interruption of traditional schooling. **Your child will earn an additional 5 points for completing the Diagnostic Snapshot this summer.** The Diagnostic Snapshot should take from 45-90 minutes total to complete.

Please note: In order to receive credit, students must show ALL work on scrap paper labeled by skill and turn it into their math teacher no later than September 22, 2021.

In addition to the Diagnostic Snapshot, the following Grade 5 skills have been assigned:

1. B.1 - Add and subtract whole numbers up to billions (*Search Shortcut Code: 6J2*)
2. C.1 - Multiply by 1-digit numbers (*Search Shortcut Code: 7H4*)
3. D.3 - Divide multi-digit numbers by 1-digit numbers (*Search Shortcut Code: XHZ*)
4. L.3 - Add and subtract fractions with like denominators (*Search Shortcut Code: FXW*)
5. DD.5 - Area of squares and rectangles (*Search Shortcut Code: E6B*)

You can access these skills at <https://www.ixl.com/math/grade-5> or by typing the three-character Search Shortcut Code into the search box on the top of the IXL homepage.

Your child can continue to use their current IXL login credentials. If you are unsure of these credentials, please contact your child's math teacher.

Please make sure your child is logged in before he or she starts to work. Otherwise, his or her progress will not be saved nor will his or her new teacher be able to view it in September.
