

Bayonne School District COVID-19 At-Home Screening

All individuals who enter a Bayonne School District facility are required to complete this self-assessment before entering all school facilities at all times.

Parents/Guardians, please review this home screening tool before every school day.

In children, signs/symptoms of COVID-19 are often mild, and it may not be possible to distinguish COVID-19 from other illnesses. The New Jersey Department of Health (NJDOH) recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test for COVID-19 or they have completed an isolation period of at least 10 days since symptom onset. The child should be fever-free for at least 24 hours without fever-reducing medications, and with symptom improvement.

Please check or daily for these symptoms:

Cough

Shortness of breath / difficulty breathing

Chills

Muscle Aches / Headache

Sore Throat

Fatigue Congestion or runny nose

Loss of Taste or Smell

Fever / Temperature greater than 100 degrees

Vomiting

Nausea / Diarrhea

Employees/Students who are sick with any of the above should not attend school in person if they have any of the above symptoms. Please stay home, notify your health care provider for additional guidance, and follow up with your school administrator.

If you have any questions you should consult with your health care provider.
