**DISTRICT GOAL #2:** An enduring positive school climate and culture are essential conditions for fostering learning and positive youth development that results in productive and fulfilling lives. Social and emotional learning (SEL) refers to the process by which children and adults acquire and effectively apply the knowledge, attitudes and skills necessary to do the following: understand and manage emotions; set and achieve positive goals; feel and show empathy for others; and make responsible decisions. For the 2019-2020 school year, the Bayonne Public School district will strive to enhance the building of positive school climates and the healthy development of our students.
